

BUSINESS FOR SALE

MARINE HEATING AND AIR CONDITIONING SPECIALIST

Ref No: FPM67742**Description:** Supply and installation of OEM systems into vessels and vehicles**Location:** Plymouth (Relocatable)**Asking Price:** £395,000 (+ Stock at Valuation)**Opportunity Overview**

Founded in 2011 and now for sale due to retirement, this leading UK supplier of heating and air conditioning systems operates in the coastal and offshore marine, inland waterways and automotive sectors. It installs onboard climate control solutions in boats, commercial vehicles, motorhomes and many other varied applications, offering product supply, installation, servicing, diagnostics, repairs and a spare parts service.

The company holds several dealership agreements, representing profile-brand manufactures with various certified statuses including Local Sales and Service Partner (part of a worldwide service network), Authorised Seller, Accredited Engineers, Exclusive Spares Supplier and Sole UK Agents. It also repairs and services equipment from most other manufacturers, providing technical assistance via email and telephone. It has the benefit of generating turnover via several income streams including web sales, telesales, installed systems, and sales of equipment into other dealers throughout the UK.

The business operates Monday to Friday from 9am to 5pm from its service and repair facility in Devon, occupying light industrial units which are secured by way of commercial lease. The property location is ideal for its commercial purposes being in proximity to a profile marina and adjacent to a main commuting route into Plymouth city centre. However, the business could easily be relocated and traded from elsewhere as sales are generated both UK wide and include some worldwide shipping, and there is no geographical supply or service restrictions. A reasonable handover period will be provided to support a successful transition of ownership.
